

A new economic vision

Lebanon

In 2019, the traditional, highly centralized economic model collapsed in Lebanon

Currency devaluation

Bank Run

Collapse of banking sector

Businesses were left without funding or payment solutions

Public services collapsed

The economic cycle stopped working

Instability

Why this happened?

Endemic corruption

Systematic lack of book
keeping

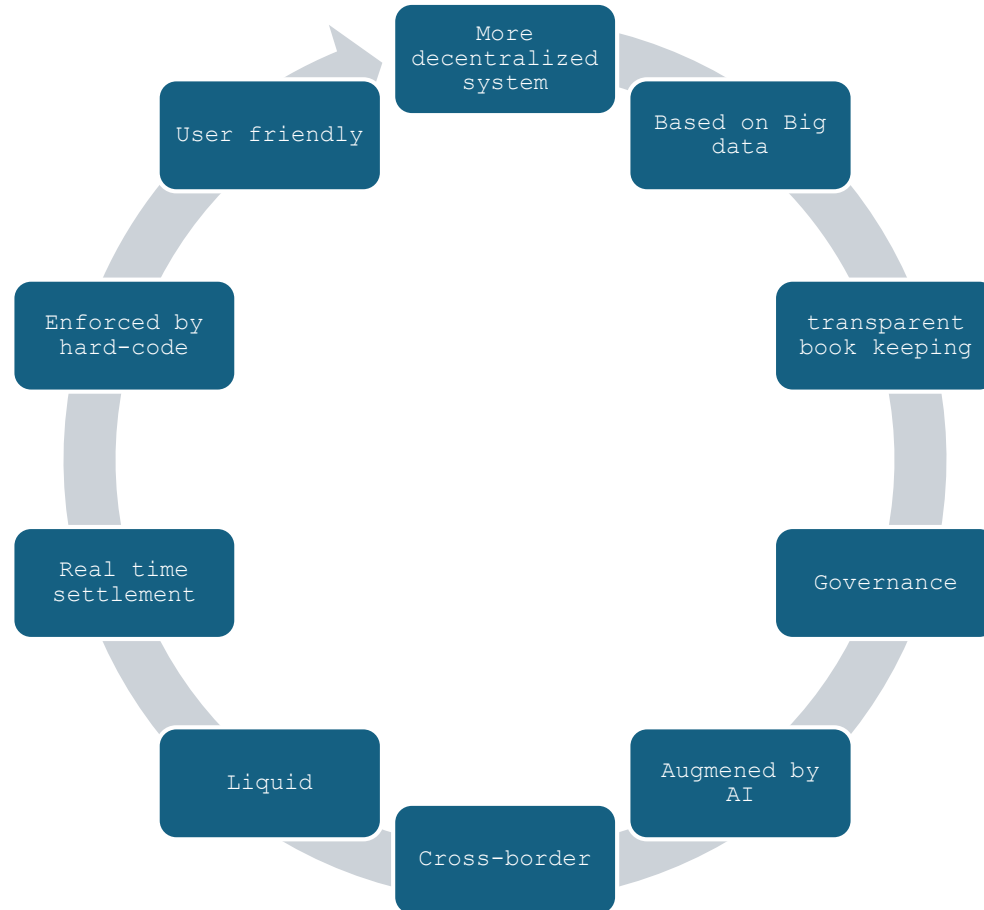

Limited enforcement of
property rights

Selective enforcement
of rule of law

No strategic planning

Highly centralized with
single point of failure

Solution

A new
economy
powered
by
Blockchain
and AI

A digital economy driven by the people

User friendly

Inclusive (anyone can participate)

competitive

Transparent

Clear and tracable property rights

Accessible to everyone

Benefits

Increase of economic activity + output (driven by data and unlimited AI skillsets)

Real-time cross border integration and exchange

Better taxation

Traceability

Efficient and inclusive oversight and decision making

Everyone can work from anywhere.

We are building
for the global
south

Let's build a better economic system
